

Our products inspire helicopters, fire Formula 1 cars, launch rockets into space,
electrify aviation, save hydrogen and win the 24 hours of Le Mans.
Challenges drive us.

In order to enhance our team we are looking for a

CNC SPECIALIST WITH PROGRAMMING KNOWLEDGE (f/m/d)

YOUR TASKS

- Production of high-precision prototypes and small series components
- Independent creation and optimization of CNC programs (Hypermill)
- Reading and understanding of manufacturing drawings
- Checking and measuring the components

YOUR PROFILE

- Completed education (e.g. toolmaking technician)
- Several years of professional experience in 5-axis CNC machining is an advantage
- Sound knowledge of CNC programming (Hypermill) desirable
- Willingness to work in shifts (2 shifts)
- Independent, structured and precise working style
- Distinct quality awareness

WE OFFER

A motivated and dynamic personality, a varied job in a small, powerful team of specialists. In addition, we offer you:

- The collective agreement "kunststoffverarbeitendes Gewerbe" serves as the basis for this position. The amount of the market-conform overpayment depends on the individual professional experience and qualification
- Well-equipped infrastructure (Hermle, WFL, Kern, Heidenhain, Siemens)

- Meals provided by the company kitchen with meals freshly prepared daily
- Training to promote professional and personal development
- Family working atmosphere with a flat hierarchy
- Technical innovation and challenges in the motorsport, aviation and space industries

We look forward to your meaningful application.
